

BUNNINGS HAS THE LATEST TRADE INNOVATIONS

For trade quality, cost effective and cutting-edge materials that perform at the highest levels, talk to our team. We have hands-on experience in the industry, so you can be sure that you'll get the advice you need for the next project you're planning.

BGC Fibre Cement

Innovative fibre cement that delivers exceptional quality and saves you time and money.

MAGLOK™ DRAGONBOARD®

Engineered 'fit for purpose' fibre reinforced Magnesium (MGS04) flooring board substrate, CodeMark certified in both NZ & AU.

Beyond Tiles

A great alternative to wall tiling. They are waterproofed wall panels that are installed directly onto framing.

BUNNINGS
TRADE

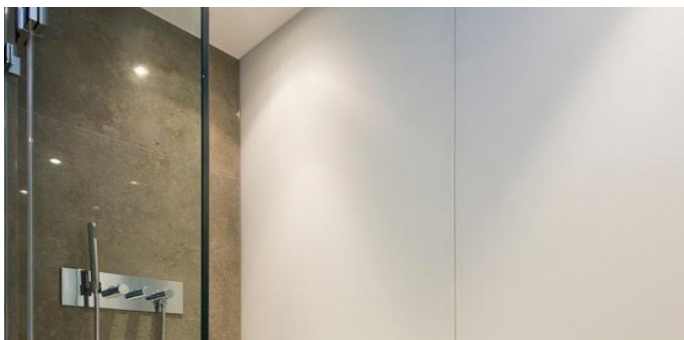

Reliable, straighter and durable LVL gauged framing timber for a stronger building.

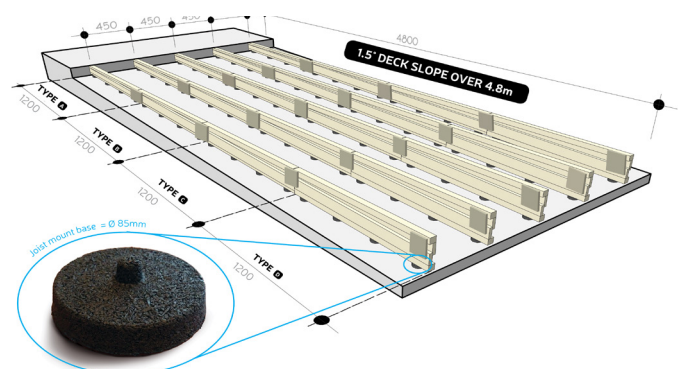

Friction fit polyester insulation guaranteed to maintain outstanding performance.

Wall and ceiling lining impervious to moisture and resistant to water and abrasion.

Fully insulated foundations that create more comfortable healthy homes.

Pre-formed, adjustable joists that provide a level sub structure for membrane decks.

The materials listed above can be purchased from any Bunnings Trade Centre. For further information, please contact your local Trade Account Manager.
